MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Funding of the Third World Demographic Data Base (C)

1. (C) In November 1980, a joint CIA, DIA, Department of Commerce program to develop and maintain a Third World data bank was proposed by the National Foreign Assessment Center. This program, which was endorsed by the Department of State and the National Security Council, commenced full operation by the Bureau of Census in FY 1981. The information provided by the Bureau of Census consists of vital statistics on economic and demographic subjects, covers areas of the world considered as having high interest for contingency planning purposes, and is required for mission support to organizations such as the Rapid Deployment Joint Task Force. Furthermore, experience has proven that the Bureau of Census is uniquely qualified to accomplish the task of publishing the data. Data published by these countries have sometimes been altered for political or economic considerations and the Bureau of Census has the expertise to properly compile and validate such raw data.

2. (C) The FY 1981 program was jointly funded by the Agency of International Development, the Central Intelligence Agency, and the Defense Intelligence Agency. In light of recent fiscal constraints for the years FY 1982 and 1983, external assistance programs for both intelligence agencies have been decremented severely, to the extent that the Third World Demographic Data Base program is in serious trouble. Although it is hoped that funds will be exempt from further cuts, it is recommended that beginning in FY 1984 your office and staff support this program strongly in the budgetary process and that consideration be given to solicit support from the National Foreign Intelligence Council, the Department of Commerce, and the Office of Management and Budget.

3. (U) To provide full support and continue the fiscal integrity of this program, draft memoranda for those government bodies essential to the continuation of this program have been attached.

JAMES A. WILLIAMS
Lieutenant General, U. S. Army
Director
